**Subject:** RE: Agenda for 11/8 NB mtg?

Hi Alice,

Enrique and I actually spoke this morning and we outlined an agenda and likely attendees for the NB meeting. He is drafting up what we discussed and then planning to send to Eugenia for input. I've cc'd him on this email so that he knows to add you as well.

The Newark Bay visit serves dual purposes for us: 1) to become familiar with the Newark Bay work still being conducted by Tierra, and 2) to observe successful and approved practices and procedures for Passaic-related work. With this in mind, I expect the Oxy-affiliated attendees for the Newark Bay sample processing site visit to include the following:

Mike Anderson, GSH  
Juan Somoano, GSH  
Steve McGee, Tetra Tech  
Richard Feeney, Tetra Tech  
Gary Braun, Tetra Tech  
Dave Richardson, Tetra Tech

Everyone except Dave Richardson will be attending the meeting at your offices in NY with regard to OU2 RD. "Formal" agendas to follow on both meetings as previously noted.

Thanks!  
Juan

By the way, do you have an agenda for the 11/8 Newark Bay meeting, or questions you were hoping to get answered? If we could have that in advance, it might make for a more productive meeting.

Also, if you could let us know who will be attending the 11/8 Newark Bay meeting, that would be great. I'll have Eugenia Naranjo send you the list of EPA/contractor attendees.
